RENOVATION OF MEXICO

The Routing Out of "Cientificos"

PLUNDERBUND MEMBERS

An Investigation of the Concessions on Which They Had Fattened—Directors of National Railways Bribed.

Mexico City, June 17.—With the idea of eradicating even the remotest "cientifico" influence in the present governmental machinery or that ever which Francisco I. Madero expects to preside after the coming general elections, a movement is on foot not only to oust the "cientificos" and their friends from federal or local offices, but also to investigate the legality of certain foreign concessions with which some of the Cientificos are said to have been partly identified.

According to a member of the present cabinet, it is absolutely necessary to renovate the governmental fabric, cleansing it more particularly of the "cientificos" than of the "porfiristas." How far the upheaval will extend is not defined, but today the Maderistas came into possession of certain information which may effect a change in the directorate of the National Railways of Mexico, the stock of which is controlled by the federal government.

A photographic copy of the minutes of a meeting of a well known all company has been obtained by Madero's friends, indicating the apportionment of a number of "free shares" of stock to the directors of the National railways. It is alleged that in this manner the oil company secured a monopoly of contracts for lubricating oil and federal protection in granting rebates.

Incidentally, rumors are circulated and founded, that the oil company in question is endeavoring to sell out to another company believed to be less likely to be injured by talk of governmental investigation.

PRICE OF PEACE.

It Cost Only \$10 A Piece for Each Warrior.

Mexicali, June 17.—Sixty men, all that remained of the Magallanes warrior band that numbered 200 two months ago, accepted \$500 from Madero today as the price of peace, laid down their arms and marched over the border into California. With their leader, and the alleged chief source of supply, Ricardo Flores Mazon, in jail at Los Angeles, the so-called filibusters, who hoped to establish a socialist commonwealth in Lower California, lost heart and tonight the town is again in the hands of the recognized authorities.

The surrender was accomplished without ceremony or delay. Senor Gallejos who headed the party of Maderistas that took the field last week, entered Mexicali accompanied by envoys representing Francisco I. Madero Jr. The disheartened insurgents agreed to lay down their arms and each was given \$10. They formed a column and marched out of town, across the international boundary, where Immigration Inspector Webb and his assistant, Genaro Gonzalez, examined them and turned such as were American citizens over to the city marshal. This officer and his deputies escorted the ex-rebels two miles north of Calexico, started them northward with instructions to keep moving. Telephone messages were sent to the authorities at El Centro and other towns in Imperial valley to see that the wandering band did not stop.

Steps have been taken to repair the damage wrought by the filibusters since they took Mexicali last January. Workmen were sent out to reconstruct the burned bridge of the Inter-California railroad, so that the large crop of sugar beets may be moved to refineries. The telephone lines, cut by Stanley Williams, who was killed in the battle of Mexicali, are being re-strung.

BROKEN SUBMARINE RECORD.

Vessels Remained Under Water Eleven Hours.

Gloucester, Mass., June 17.—The American record for submerged runs was broken by the flotilla of seven submarines which arrived here today from Newport. All of the number stayed under water ten hours yesterday during the run from Nantucket to Provincetown, while two of the number did not come to the surface for eleven hours.

This is the longest time any submarine of the United States navy ever remained beneath the surface, according to officials of the flotilla. The run from Provincetown to this port today was made entirely beneath the surface, and consumed seven and one-half hours.

KNIGHTS OF COLUMBUS.

Election of Officers at Prescott Convention.

Prescott, Ariz., June 17.—The state convention of the Knights of Columbus today elected the following officers: H. William Stevens of Prescott, state deputy; Frank DeSousa of Phoenix, secretary; A. P. Martin of Tucson, advocate; J. H. Welsh of Globe, warden; Rev. C. Vabre of Flagstaff, chaplain.

The delegates to the national convention in Detroit in August are H. William Stevens, state deputy; alternate, M. E. Cassidy of Bisbee; past state deputy, J. L. Boyce of Flagstaff; alternate, R. E. Morrison of Prescott.

A FIGHTING EDITOR.

Axtell of Lodi, Cal., Sentinel to Be Charged With First Degree Murder.

Stockton, Cal., June 17.—A formal charge of murder in the first degree will be filed against Editor S. B. Axtell of the Lodi Sentinel on Monday morning by District Attorney E. P. Foltz, Charles Sollars, the victim of Axtell's gunshots, having died this morning.

The coroner's verdict charged Axtell with the murder of Sollars. Axtell remains cheerful in his cell at the jail and evinces less concern about the shooting than his friends or other interested parties. He refused to discuss the murder for publication.

DEMOCRATS TAUNTED WITH CHANGE OF FRONT

MR. PAYNE DISCUSSES WOOL TARIFF.

An Indian's Way of Meeting Government Financial Needs.

Washington, D. C., June 17.—Accusing the democrats of having abandoned their free trade principles in the framing of the wool tariff revision bill and declaring that they are as much one-man ruled as they ever charged the republicans with having been, Representative Sereno Payne of New York, chairman of the committee which framed the Payne-Aldrich tariff, made the principal speech in the wool bill debate today.

With the intention of closing the general debate on the bill the house held a night session tonight and representatives advocating and opposing the bill were given a chance to speak. Chairman Underwood hopes to reach a vote on the measure probably next Tuesday or Wednesday.

SUGAR, LESS, TOBACCO, MORE.

Washington, D. C., June 17.—Representative Warburton of Indiana introduced in the house today a bill placing sugar on the free list and increasing the revenue on manufactured tobacco. The bill is in line with the arguments made by Warburton in a speech against the Underwood wool bill in which he declared that a revenue from tobacco could be largely increased.

The bill proposes to tax snuffs twenty-four cents per pound; loose tobacco prepared for sale, sixteen cents per pound and a graduated increase over the present tariffs on cigars and cigarettes.

FATAL LACK OF QUORUM.

Washington, D. C., June 17.—A delay in the smooth progress of the democratic legislative program and a vote on the wool tariff revision bill will be occasioned on Monday because the democrats of the house for the first time since the beginning of the special session, today, were unable to muster enough votes to support a motion to adjourn until Tuesday and avoid the consideration of the "committee discharge calendar."

Ever since the opening session the democrats have successfully dodged the provisions of this calendar and "The dollar a day" pension bill must face the issue on Monday.

The only way the democrats can avoid a vote on the pension bill on Monday is by an adjournment immediately after the house convenes. Democratic whips have sent out to appeal to members who are out of town and by noon on Monday Mr. Underwood hopes to have sufficient strength to enable him to run his steam roller over the republican opposition.

ONLY TREE HE NEVER SAW.

Professor Muir Will Make Trip to Southern Chile.

New York, June 17.—Prof. John Muir of California, the naturalist and discoverer of the Muir glacier in Alaska, announced tonight at a dinner given in his honor that he would start next week for southern Chile to see the only specimens of a tree which he had not beheld. The tree is a rare species of beech nut and is found only in the Andes.

An expedition will accompany him, and although he is more than 70 years old, he will be in active command. Prof. Muir will not attempt to bring back any samples of rare specimens, but will be content to gaze upon the tree in its native soil.

MR. BRYAN WEAKENS.

Laurens, S. C., June 17.—Despite the fact he criticised the Underwood bill as it applies to schedule K, the wool schedule, W. J. Bryan tonight admitted that it was an improvement over the present law.

HARMONY WILL YET PREVAIL

Light Question Will Be Settled Amicably

AN AGREEMENT HOPED FOR

Majority of Property Holders Endorse Plan of Commission—Four Lights Not Too Many—Business Men Ready to Pay Cost.

"We were appointed by the city council to serve the city in matters connected with the paving, and we have no intention of handing in our resignations until that work is done. Our obligation to work for the best interests of the people is as strong as ever, and we do not consider the difficulties of the last few days sufficient to make any difference in our attitude either to the council or the work we were delegated to do."

This statement was made yesterday afternoon by a member of the paving commission. The report having been circulated that the body was dissatisfied with the procedure of the city council, and that the members of the commission were on the point of handing in their resignations, the statement was issued as a reassurance to the people.

The council has had little to say on the question of light standards since the last conference with the commission, but from an interview with a prominent business man of the city yesterday it was learned that steps are being taken to learn the will of the majority and it is believed by those who have followed the argument for and against the recommendation of the commission for four standards to each side of a block, that the reason underlying the objection is a desire to keep the expenses of the city within reasonable limits, and not to slight in any way the recommendation of the commission.

Confronted with the serious problem of meeting the expenses of the city without any further increase of the assessment, the council has been inclined to condemn the installation of a greater number of lights than are actually required for illuminating the streets, and the objection to the plan of the commission has been based on the assumption that three standards would give sufficient light to each side of a block to answer all the needs of the city, and the downtown merchants.

"From a standpoint of economy," said A. B. Williams, the proprietor of the Hotel Ford yesterday, "the council may be right. Councilman Cliney was in to see me about it, and he said he thought three lights would be sufficient, and also that the city was in no condition to bear the \$1,000 expense which will be attached to the operation of the fourth light. This seems reasonable enough, but I believe in light myself, and am so much in favor of the four standards that I would be willing to go in with the other property holders of the block to pay my share of the additional expense, without having the bill presented to the council for payment out of the city treasury. I believe many others feel as I do about it, and I am inclined to believe that a solution of the entire difficulty might be found by following out this idea."

It is not known how many business men were seen by Councilman Cliney yesterday, but it is possible that the council is making a canvas of the property owners to determine the sentiment on the question at issue. The matter ought to be placed fairly before the citizens and taxpayers, whose money will be spent in carrying the city light bill, say the councilmen. It is expected that in the next meeting of the body a statement will be issued describing the result of the investigation, and there can be no doubt that if the consensus of opinion favors the installation of four standards to the block the council will stand ready to grant the will of the majority.

"We want these lights in, and we want them in the way the commission recommended them," said Joseph Thalhimer, when asked to give his opinion of the controversy which was reported to have arisen between the council and the paving commission. "The reason we feel this way is because we (the property owners) are going to pay for the installation ourselves, and if we are willing to bear the expense of putting them in, the city ought to stand ready to pay for the electricity. I think I am giving the opinion of many other business men in the city when I say that we want either four lights or nothing."

The members of the commission still expect to see their plan ultimately approved, and still intend to work in harmony with the body which appointed them in the way the commission recommended them, said Joseph Thalhimer, when asked to give his opinion of the controversy which was reported to have arisen between the council and the paving commission. "The reason we feel this way is because we (the property owners) are going to pay for the installation ourselves, and if we are willing to bear the expense of putting them in, the city ought to stand ready to pay for the electricity. I think I am giving the opinion of many other business men in the city when I say that we want either four lights or nothing."

I think I am giving the opinion of many other business men in the city when I say that we want either four lights or nothing."

fly off at a tangent because of the scant attention its recommendations have received up to this time.

"If it were not for the alleys that intersect the downtown blocks," said R. B. Berryhill last night, "I believe I would agree with the council that three standards would be sufficient. But, if I were a property holder on one side of the alley, and they placed the standard on the other, I am sure I would have something to say about it. It seems to me that the other property holders will look at it in the same way. I can see only one way out of it and that is to put in four standards to the block."

Although E. P. Conway, the representative of the Barber Asphalt company, has taken no part in the light controversy, he explained to the commission that one of the principal advantages in installing the lights at this time would be the fact that the conduits for the wires could be laid under the cement or paving with little additional expense. This will make it necessary for a decision to be reached before the paving begins. In the meantime it is not believed that there will be any serious rupture between the council and the paving commission.

Before leaving for Prescott yesterday Mr. Conway declared himself greatly pleased with the progress of the paving work, and spoke in a manner of high commendation of the action both of the council and the commission.

PRESIDENT ORME TALKS TO COMMITTEE

Washington, June 17.—(Special.)—J. P. Orme of Phoenix was before the senate committee on territories today. He said he represented 2,800 farmers in the Salt River valley, and that neither they nor any one else of the hundreds of Arizonians he had talked with were dissatisfied with the Flood resolution.

The committee has adjourned until next Friday. The indications are that favorable action on the resolution will be reported to the senate a week from next Monday.

STRIKE OF SEAMEN FIVE HUNDRED OUT

ONE VESSEL MANNED BY STRIKE BREAKERS SAILS.

Morgan Line Officials Expect No Serious Embarrassment.

New York, June 17.—Five big coasting vessels tug at their anchors and moorings tonight deserted by 500 of their seamen, stewards, firemen and stokers, as a result of the strike declared today by the International Seamen's union against the Morgan line. Two of the number, the Mimus, with ninety-nine passengers aboard, and the Elcid, a freighter, which were scheduled to sail today for New Orleans, lie in midstream with picketing tugs manned by strikers hovering near to dissuade strike breakers from enlisting. Three others, the Antilles, the El Rio and the El Norte, are fast to their docks.

General Secretary Griffin of the Seamen's union said tonight that a greater measure of success than he had hoped for had crowned the strikers' first day's efforts. He also announced that other coastwise lines would be involved in the strike unless the union's demands were granted by next Thursday.

C. W. Junger, general manager of the Morgan line, was still hopeful late tonight of getting the boats under way by midnight or before. Crews of four other Morgan line towboats also struck in sympathy with the union this afternoon.

One Escape. The freighter Elcid weighed anchor and steamed down the bay with a crew of strike breakers tonight. An official of the Morgan line announced later that a full complement of strike breakers had been employed for the Mimus and that she will sail tonight.

BAPTISTS IN RUSSIA.

President Taft Asked to Intercede in Their Behalf.

Philadelphia, Pa., June 17.—President Taft has been asked to intercede for the Baptists in Russia in a resolution adopted by the Northern Baptists convention.

Widespread interest had been aroused among the delegates by accounts of persecution told by members of the delegation from that country and it is hoped to win greater freedom for the Russian Baptists.

NO FIGHT IN OKLAHOMA.

Governor Will Call Out Militia to Prevent Morris-Flynn Fight.

Oklahoma City, Okla., June 17.—The fight between Morris, Oklahoma's heavyweight pugilist, and a "white hope," and Jim Flynn, the Pueblo fireman, scheduled to take place at Tulsa on the afternoon of July 4, will not be held in Oklahoma if Governor Lee Cruce can prevent it.

The governor this afternoon said that if necessary he would call out the militia to enforce the law.

KANSAS CITY, MO., JUNE 17.—Despite the threat of Governor Cruce to prevent the Flynn-Morris fight, Jim Flynn, who is training here, said tonight that he would continue his work.

COMMITTEE INSISTENT

Head of Mormon Church Wanted in Sugar Inquiry

ILLNESS NOT AN EXCUSE

Neither Is the Pressure of Obligations at Home, Nor Yet the Fact That Other Available Witness Know More of Subject.

Salt Lake City, Utah, June 17.—Thomas Cutler general manager of the Utah-Idaho Sugar company, left today for Washington to testify in the house committee sugar investigation. Joseph Smith, president of the Mormon church, also asked to appear before the committee, expressed an unwillingness to do so on account of other duties and illness and from the further fact that he is not familiar with the details of the Utah-Idaho corporation.

MR. SMITH MUST TESTIFY.

Washington, D. C., June 17.—Joseph F. Smith of Salt Lake City, head of the Mormon church must come to Washington to testify before the house committee investigating the so-called sugar trust, regarding his connection with the Utah-Idaho Sugar company. Replying to a message from Mr. Smith saying that an attack of rheumatism and business obligations would prevent him appearing here, Chairman Hardwick of the committee tonight sent this ultimatum: "The committee is determined to have your testimony; the only question left is, will you come on the twenty-second without a subpoena or shall we send an officer to serve you? Please answer at once."

At a late hour tonight Mr. Smith had not been heard from. In a message to Hardwick, the head of the Mormon church said: "The sugar industry of Utah and Idaho is one of the great blessings to the people of those states. The men in management are capable and honest, any one of whom can give you all information I can, and more, in regard to the details of the business."

"I am always willing to give evidence in any business with which I am connected, but my obligations here make it exceedingly difficult, if not impossible, for me to reach Washington by the 22nd. John H. Smith, one of the presidency of the church, and a director and member of the Utah-Idaho Sugar company is now in the east and could without expense to the government meet your committee and answer any questions possible for me to answer. Besides all this, I am suffering of sciatica rheumatism and am in no health to go to Washington."

MR. SMITH WILL GO.

Salt Lake City, June 17.—When advised that the committee would insist upon his presence, President Smith this evening sent a second dispatch to Chairman Hardwick, in which he said he would go to Washington as soon as the proper papers were served and the condition of his health would permit. Beyond the fact that such a telegram had been sent, Mr. Smith refused to make a statement.

THE STEEL INQUIRY.

The Corporation Will Have a Rest of Ten Days.

Washington, D. C., June 17.—The progress of the investigation of the United States Steel corporation by the house special committee will be retarded for ten days or more by the absence of Representative Stanley, chairman of the committee, who has been called to his home in Kentucky. The next meeting of the committee will be held at Washington early in July.

NORTHWESTERN ATHLETES.

Seattle, Wash., June 17.—The Seattle Athletic club won the Pacific Northwest track and field meet today with 78 points. The Vancouver, B. C. Athletic club was second, with 26 points; the Multnomah Amateur Athletic club of Portland was third with 35 points.

BROOKINGS QUITS THE AIR.

Quincy, Ill., June 17.—Walter Brookings announced today, after finishing a two days' exhibition here, that he has quiet the flying business for good. He will devote his time in the future to his orange growing and mining interests which he has acquired in the west.

COLLEGE BASEBALL.

At Providence—Brown 4, Tufts 1. At New Haven—Yale 1, Cornell 0. At Cambridge—Harvard 5, Williams 3.

ENGLISH SEAMEN'S STRIKE.

Widely Different Predictions As to the Result.

London, June 17.—Both sides of the seamen's strike continue confident of victory. Havelock Wilson, secretary of the Seamen's union, declared today that 5,000 men are affected throughout the country. He is confident that they will be shipped at full union rates next Wednesday. The strike, he believed, was already won, in spite of the "bluff of the shipowners."

On the other hand, the manager of the shipping federation said the position of that organization has not changed. Lively scenes were witnessed at Glasgow today at the sailing of the Atlantic and other liners. The strikers flocked to the piers and endeavored to prevent men from signing.

LA FOLLETTE'S BOOM.

It Had Its Birth At Minneapolis Last Night.

Minneapolis, Minn., June 17.—Robert La Follette's boom for president was launched here tonight at a meeting of the executive committee of the Minnesota progressive league. A resolution endorsing La Follette as the progressive candidate for president was adopted. The resolution is recommended for favorable action to all progressive organizations of the state. This action is looked on as the opening gun in the fight for a republican delegation in Minnesota in opposition Taft.

ALL LONDON ABLAZE FOR THE CORONATION

AMERICA'S SPECIAL AMBASSADOR ON THE GROUND.

Theoretically, Though, He Is Still On His Way.

London, June 17.—On the eve of Coronation week London is ablaze with color. A few days ago the aspect of the streets suggested a city of splints, so vast was the area of bare timber. All this has been transformed with paint and hanging fabrics. The metropolis now appears in extreme gala attire. From early morning until late at night the streets are thronged with a cosmopolitan crowd.

Musical rehearsals are proceeding with their choir and orchestra for the great ceremony in Westminster Abbey. No fewer than 450 voices compose the choir, drawn from every cathedral in England.

The interior transformation of the abbey is completed, and with the final rehearsal on Monday at which their majesties are expected to be present, everything will be in readiness for Thursday's celebration.

Early in the week the last of the royal delegates will arrive and London will then contain as distinguished a company as was ever gathered in any capital. Few seats remain unsold and those only the most expensive.

Although John Hays Hammond, the special ambassador of the United States is in London, he does not arrive officially until Monday. He will then go to Dover where Lord Sandhurst and staff on behalf of the king and the staff of the American embassy will welcome him. From Dover he will proceed to London where the Duke of Connaught will receive him officially.

The week's program includes a dinner at Buckingham palace, a ball at Stafford house, a state dinner at Buckingham Palace, a dinner by the Duke of Connaught, and a dinner by Sir Edward Grey, foreign secretary. Ambassador Whitelaw Reid, who has been ill at his country place during the last week is said to be greatly improved and expects to be able to attend the festivities.

EXPRESS COMPANIES' PROFITS.

A Project to Keep Down Their Accumulations of Wealth.

Chicago, June 17.—An investigation was begun today by a committee representing the National Association of Railway Commissioners toward regulating express companies and curbing the accumulation of profits. The committee, composed of railway commissioners and members of public service commissions from every state, plans to shape further legislation and formulate rules pertaining to express carriers relative to the maximum amounts they shall charge for service.

KILLED AT A CROSSING.

Prominent New Yorkers Hurrying To Polo Game.

Westbury, N. Y., June 17.—An automobile in which Wilfred Jay, editor of the magazine, Whip and Spur, and Charles J. Ross, official photographer at the polo games at Meadowbrook, were hurrying to a polo game this afternoon were struck by a Long Island train at a crossing near here and Jay was instantly killed. Ross received injuries which caused his death tonight.

PANAMA LOAN SWALLOWED UP

\$50,000,000 Issue Three Times Over Subscribed

BIG BIDDER GETS NOTHING

The New Bonds Will Be Scattered All Over the Country at Average Price of 102 1-2—The Nation's Credit Is Satisfactory.

Washington, June 17.—Such estimates of the bids for the government's 3 per cent \$50,000,000 Panama loan as are available tonight indicate that the loan has been three times oversubscribed and that the average price of the new bonds will run a little over 102 1/2.

The bona fide bids received total \$170,000,000. Of this amount \$2,300,000 is subscribed at 3 per cent or more; \$22,000,000 at over 102 1/2; \$51,000,000 at between 102 1/2 and 102 3/4; and \$52,000,000 at 102 and under. The successful bidders and the amounts are as follows:

Harvey Fisk & Sons of New York, \$10,000,000.
Hanover National Bank of New York, \$4,600,000.
American Exchange National Bank of New York, \$3,500,000.
William A. Reed & Co. of New York, \$1,000,000.
Seaboard National Bank of New York, \$600,000.
National Park Bank of New York, \$500,000.
Polson & Adams of New York, \$400,000.
First Trust & Savings Bank of Chicago, \$350,000.
Hibernia Savings & Loan Company of San Francisco, \$300,000.
Seattle National Bank of Seattle, Wash., \$200,000.

A majority of what remains available below these sums will go to small bidders scattered all over the country. If the price of the bonds averages 102 1/2, and the treasury officials think it will yield to the investor 2 1/2 per cent. The National City Bank of New York, which bid for the whole issue at prices varying from 100.10 to 102.50, will not get any of the new bonds. Neither will Kuhn, Loeb & Co., who bid for \$10,000,000.

MORE THAN 3,000 BIDDERS.

Washington, June 17.—The government's new 3 per cent \$50,000,000 Panama loan is a complete success. More than 3,000 bids, opened today, oversubscribed it at least three times and probably more. Before the opening of the bids had been in progress half an hour the treasury officials declared that the loan would be entirely taken by comparatively small investors at a price higher than 102 1/2.

The prices bid for the new bonds are taken to indicate that the national credit of the United States is the best in the world. The securities of England, France and Germany are selling at a discount, and many financiers believed that the Panama loan would bring little above par. Not since the civil war has the government issued bonds which did not have artificial value because of the national bank circulation privilege attached to them.

The price of these new securities, available for investment only, is taken to reflect the credit of the nation.

The National City Bank of New York submitted fifty bids, covering the entire issue of \$50,000,000 at prices ranging from 100.50 to 102.25. Harvey Fisk & Sons of New York bid 102.77 for \$20,000,000. There were other large bids at about that figure.

Among the smaller bids prices ran to 105 and higher for small allotments of \$500 and up. Hundreds of bids for sums ranging from \$1,000,000 to \$10,000,000 at prices between 102 1/2 and 103 probably will take the issue, though the successful bidders will not be known until tomorrow.

Secretary MacVeagh and A. Piatt Andrews, assistant secretary of the treasury, who has been in active charge of the issue, opened the first bids. Secretary MacVeagh expressed satisfaction at the showing.

Watches, Diamonds and Jewelry, Bought,
Sold and exchanged. Highest cash price paid for Old Gold, Silver and Precious Stones.
N. FRIEDMAN
Mfg. Jeweler and Watch Repairing. 33 W. Wash. St., Phoenix, Ariz.
